ANH Academy

A global research network in agriculture and food systems for improved nutrition and health, to serve as a platform for learning and sharing

www.ANH-Academy.org

@IMMANA_res

ANH Academy Objectives

Share innovative research in ANH research

Stimulate the development and harmonisation of new research

Strengthen the **capacity of the research community** to undertake inter-sectoral & interdisciplinary research

Facilitate policy uptake of robust evidence in agriculture and food systems for improved nutrition and health

ANH Academy Weeks

Addis Ababa, 2016

Kathmandu, 2017

ANH2018 participation

345 participants

48 countries represented (by country of citizenship)

138 unique institutions represented

21 people sponsored by ANH Academy

ANH Academy

Agriculture, Nutrition & Health Academy

ANH2018 presenters

138 speakers (Learning Labs & Research Conference)
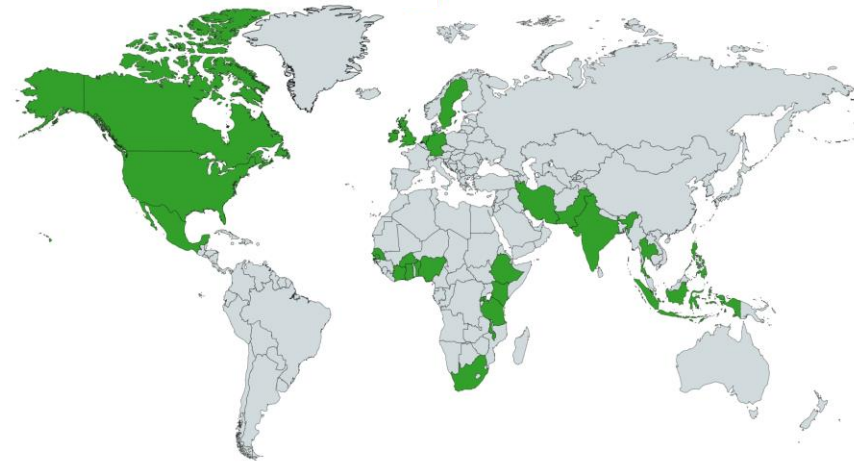

68 poster presentations

17 Learning Labs over **45** hours

60 abstracts presented at the Research Conference

33 women & **27** men

16 countries represented

Agriculture, Nutrition & Health Academy

ANH2018 feedback: Themes

ANH specific

Agriculture
Nutrition
Health
Economics

- *Nutrition and resilience/social protection*
- *Nutrition in conflict/emergencies*
- *Political economy of food systems*
- *Food safety under limited resources*
- *Nutrition transition and its implications*
- *More on measuring healthiness of diet and obesogenic food environment*
- *Nutrition transition and associated NCDs*
- *Post-farm value chains, i.e. storage, transport, processing, and retail*

- WASH
- Zoonosis
- Livestock production systems and health outcomes
- Disability
- AMR
- Mental health

- *Socio-economic equity and vulnerability in the context of ag-nut interventions*
- *Behavioural economics*
- *Econometrics*

Climate
Social aspects

- *Impact of climate risks, shocks and resilience of food and agricultural systems on nutrition*
- Planetary health links to ANH
- Climate smart agriculture
- Environmental impact of food systems in LMIC
- Sustainable diets

- Political economy and anthropology of food
- Social, cultural and historical dimensions of agriculture, nutrition and health linkages
- Sociology and human geography
- Social exclusion
- Role of social networks and information dissemination in improving food, nutrition and agricultural outcomes

Research into policy and practice

Food politics and governance

Policy
Practice
Programming and M&E

- Private sector
- GMOs
- Trade
- Country examples of ANH integration in government policies and structures.

- Implementation
- Impact
- Food policy processes
- Translating research into action for practitioners
- Uptake of new methods and technologies
- "Now what?"

- Monitoring and evaluation of agricultural, nutritional and health related policies and programmes
- Long-term sustainability of programmes

ANH2018 feedback

Parallel sessions?

9 We have experimented with different conference formats to allow all attendees to learn about different kinds of research being conducted in these interdisciplinary fields and to exchange perspectives. Please select the scenario that you prefer.

The current format of largely plenary presentations of 8-10 minutes and limited parallel sessions. — **99** (64.7%)
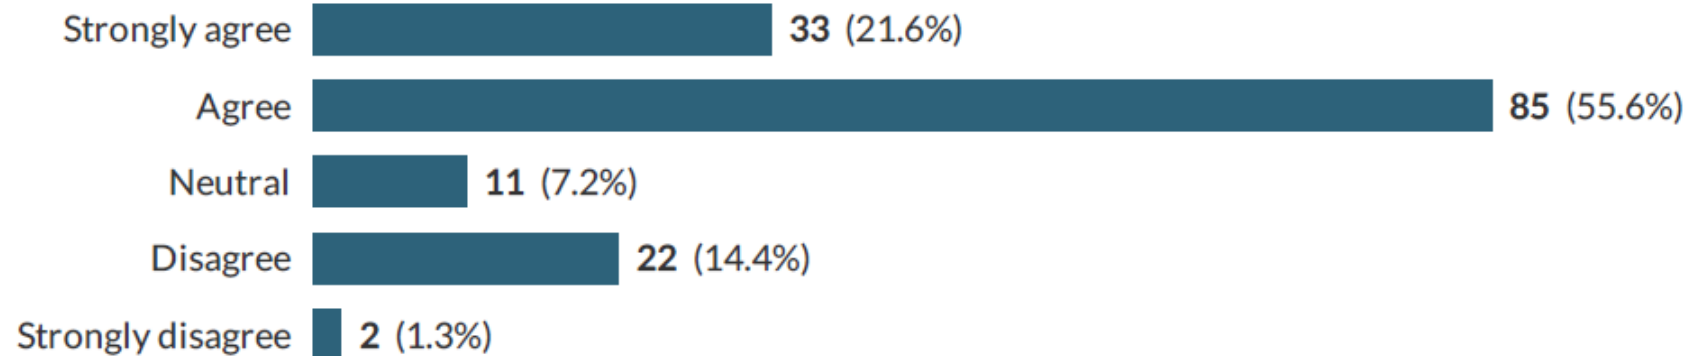

Parallel sessions of 12-15 minutes with limited plenary talks. — **54** (35.3%)

ANH2018 feedback

Session lengths

The length of each session was about right
